

Protecting people and property with customized digital security solutions

Video Security Products

Offering customized security solutions is incredibly complex because each component must be fine-tuned to deliver the best results. To provide versatile, bespoke solutions, Video Security Products (VSP) selected Lenovo as its OEM partner—delighting customers with fast access to cutting-edge technology.

Customer Problem

How can VSP provide tailored CCTV solutions to customers at scale?

Lenovo Solution

With Lenovo as its OEM partner, VSP gets access to a full catalogue of best-in-class technologies, pre-configured to meet its customers' specifications and delivered with priority shipping.

Business Impact

VSP saves significant time and resources through the Lenovo OEM partnership and gains access to a full spectrum of top-tier technologies—boosting competitiveness.

“By partnering with Lenovo, we can be much more flexible with the solutions we offer.”

Joseph Siccita

Product Manager, Video Security Products

Reduces hardware configuration workloads
