

# CONNECTRIA

Conquering data center complexity to deliver best-in-class cloud hosting services.

## Solution components

### Hardware

Lenovo ThinkSystem SR630 with Intel® Xeon® Scalable processor family

### Software

Lenovo XClarity Administrator  
Lenovo XClarity Controller  
Microsoft SQL Server  
VMware vSphere

### Services

Lenovo Essential Service 24x7 4-Hour Response  
Lenovo YourDrive YourData Service

*“We rely on rapid, responsive equipment delivery to keep up with customer demand, and Lenovo has never let us down.”*

*—Dustin Mathews, AVP – Technical Operations, Connectria*

Data center complexity was a huge headache for managed services provider Connectria. By selecting Lenovo ThinkSystem SR630, featuring Intel® Xeon® Scalable processors, as its platform of choice, Connectria has simplified infrastructure management and given performance a boost—keeping services running smoothly.
