Lenovo XClarity

## Services

Lenovo Assessment Services  
Lenovo Design Services  
Lenovo Hardware Installation Services  
Lenovo Migration Services  
Lenovo Premier Support  
Lenovo YourDrive YourData

FNCB Bank is an independent community bank, serving personal and business banking needs across Northeastern Pennsylvania. The digital channel is a key enabler of FNCB Bank's long-term growth strategy, but the bank's aging legacy IT infrastructure threatened to stand in the way of its ambitious timetable for launching new services. To solve the challenge, FNCB Bank moved to a future-ready hyperconverged infrastructure from Lenovo and Nutanix—delivering the performance, scalability and flexibility for service innovation.

“Compared to other vendors we've engaged in the past, working with Lenovo and Nutanix feels like a true partnership.”

Ron Honick, Senior VP,  
Operations and Technology  
Services Officer, FNCB Bank
