Germany

# Fuchs+Partner

Modernizing IT to  
capture new business  
opportunities.

## Solution components Hardware

- Lenovo ThinkSystem SR630

## Software

- Acronis Cyber Backup on Scale Computing HC3
- JobRouter
- Microsoft Windows
- Scale Computing HyperCore Software (HC3)

## Services

- pk Systems GmbH

Construction company, property developer, and landlord Fuchs+Partner is expanding into new business areas while also taking on larger multi-story construction projects. In pk systems GmbH and Lenovo, Fuchs+Partner found innovative partners to consolidate its fragmented IT and digitize its business processes, laying the foundations for rapid business expansion with a hyperconverged solution based on Lenovo ThinkSystem servers and Scale Computing HyperCore Software (HC3).

“

When we build a new home, our customers need to trust us. The same way we had to trust pk systems, Lenovo, and Scale Computing—and were rewarded for our trust.”
