JVCKENWOOD

Supporting new working demands with a renewed virtual infrastructure.

vmware®

Solution components
Hardware

- Lenovo ThinkSystem SR650
- Lenovo ThinkSystem SN550

Software

- VMware Horizon®

Japanese multinational electronics company JVCKENWOOD dialed up the performance and capacity of its virtual desktop infrastructure with Lenovo ThinkSystem SN550 and Lenovo ThinkSystem SR650 servers with VMware Horizon® software. It's now ready to help thousands of employees work efficiently with rapid, reliable access to essential applications and systems.

"

In the end, we decided to go with Lenovo because of its three-tier configuration, reliability, past performance, and price.
