## Services

- Lenovo Preconfigured Support Services
- Lenovo Warranty Service Upgrades
- Lenovo Committed Service Repair Services

Libra Internet Bank is one of the most innovative and dynamic banks in Romania, offering a wide range of banking services, available in-branch, online, and on mobile. The bank specializes in areas such as professionals, real estate developers, agribusiness or the small and medium-sized enterprise (SME) segment, and pays special attention to modern technology and fintech partnerships. The bank delivers high-quality digital banking services during a rapid business growth phase with an application performance boost from Lenovo ThinkSystem DE6000F storage arrays.

“With the Lenovo ThinkSystem DE6000F arrays, our customer-facing banking applications are running up to 1.5 times faster. Ultimately, this helps to ensure a responsive, high-quality experience for customers.”

**Alexandru Dionian,**  
Director of IT Division,  
Libra Internet Bank
