Services

Lenovo Installation Services

"With the Lenovo-Nutanix solution, we gained peace of mind. With such a reliable, high-performance infrastructure, we know we can depend on it to keep our most critical business applications running smoothly – now and as we continue to grow."
—Andrés Herrera, Regional IT Infrastructure Leader (LatAm), Opticas GMO

To keep ever-expanding retail operations on track, Opticas GMO implemented a hyperconverged infrastructure from Lenovo and Nutanix. Featuring Intel® Xeon® E5 processors, the solution delivers eye-opening performance, availability and scalability to ensure core business systems run smoothly 24/7.
