Services

- Lenovo Assessment Services
- Lenovo Factory Integration Rack and Stack
- Lenovo Hardware Installation Services
- Lenovo Migration Services
- Lenovo On-site Services – Deployment
- Lenovo Post Warranty Services
- Lenovo Proof of Concept Lab
- Lenovo Training Services

The Xinjiang Autonomous Region Tax Bureau is responsible for the implementation of taxation and other fiscal policies throughout Xinjiang, China. To better meet the requirements of the national tax exchange, the Golden Tax System, the Bureau migrated to Lenovo ThinkSystem DM7100F Unified All Flash Storage Arrays. The new storage platform delivers a five-fold boost to the performance of mission-critical tax applications, helping to the Bureau to harnessing modern technologies such as big data to improve tax services, strengthening tax governance, administration, and fraud detection activities.

“Lenovo has worked with tax authorities in China for more than 20 years, and their deep experience was clear throughout the engagement. What’s more, Lenovo storage solutions offered the best price-performance ratio of all the storage vendors we evaluated.”

Yu Ren,
Technical Supervisor, Xinjiang State Tax Data Center
